NEW COMPUTER SYSTEM:

Please bear with us as we transition to the new system starting January 1st. It would be beneficial for you to keep any statements you may have in case we are unable to pull them for you.

FINANCIAL SAFETY:

DO NOT give your personal information (SSN, DOB, bank acct #, etc.) to anyone over the phone or internet. If a company or government agency calls and asks for personal information – it's FRAUD.

If they initiate the contact then they should have your information. Also beware of bogus internet threats and do not click on anything, call a computer IT company to verify first.

ONLINE SHOPPING AND ACTIVITY SAFETY

Before you create an online account, shop, or enter any personal information on a website, check for signs that the organization and the site are secure and trustworthy. Things to look for:

1. Look for security indicators; https at the beginning of a web address indicates the page uses a secure form of encryption.
2. Learn about whom you're dealing with. Investigate business.
3. Read the Privacy Policy.
4. Research some more: read through return, refund, or shipping policies, terms of use, and other information provided about the business.
5. Guard your Cards: Shop online with credit card or prepaid debit card rather than a debit card, which provides direct access to the money in your bank account.
